Example poster for the Graduate School Engineering Mechanics

T.W.J. de Geus[2], J. van Beeck[2],
R.A.M.F. van Outvorst[1], J.A.W. van Dommelen[1,2]

[1]Graduate School Engineering Mechanics
[2]Eindhoven University of Technology

Introduction

An example of the EM graduate school poster style is shown

Logos

The logos of the primary affiliation (i.e. the university) and the other affiliations and sponsors of the project are included at the bottom of the poster, respectively at the left and the right. They are included by

```
\university{...}
\rightlogo{...}
```

whereby in principle any LaTeX-code can be used at the dots. A common usage is

```
\university{%
    \includegraphics[height=\logoheight]{...}%
}
\rightlogo{%
    \includegraphics[height=\logoheight]{...}%
}
```

Preamble

The title, authors, and their affiliations are included in the poster by the

```
\title{...}
\author{...}
\affiliation{...}
```

commands in the preamble of the document.
The progress bar in the footer is included using:

```
\progresstype{...}
\progresssections{...}
\progressfraction{...}
```

which creates a progress bar in the footer. The command respectively set the title, number of fields, and the fraction of the bar to fill.
The rest of the LaTeX-code has the following structure:

```
\begin{document}
\maketitle
...
\end{document}
```

Column layout

The poster can be divided in multiple columns. For example the following code can is used to create the two columns of this example

```
\begin{document}
\maketitle
\begin{multicols}{2}
...
\end{multicols}
\end{document}
```

Alternative, one could also use mini-pages:

```
\begin{document}
\maketitle
\begin{minipage}[t]{0.48\textwidth}
...
\end{minipage}
\hfill
\begin{minipage}[t]{0.48\textwidth}
...
\end{minipage}
\end{document}
```

or other constructions.

Body

The regular LaTeX-commands can be used, e.g.

```
\section{...}
```

Similarly figures can can be included as follows

```
\begin{figure}[H]
    \includegraphics[height=6mm]{...}
    \caption{...}
\end{figure}
```

Example
